Computer Standards & Interfaces 12 (1991) 259
North-Holland

Author index of volume 12 (1991)

Bonino, M.J. and M.B. Spring, Standards as change agents in the information technology market (2) 97–107

Castro, S., The relationship between conformance testing of and interoperability between OSI systems (1) 3– 11

Egelhaaf, C., *see* **Kirsch, B.** (1) 35– 43

Gallagher, L., Database management standards: status and applicability (3) 185–192
Gibson, R.W., IEEE 802 standardization efforts (3) 193–203
Gilson, R.D., *see* **Myler, H.R.** (2) 123–128

Iorio, J., IEEE standards: mechanizing the standardization process (3) 205–207

Jerman-Blazic, B., Security in value added networks – security requirements for EDI (1) 23– 33

Kirsch, B., C. Pflüger and C. Egelhaaf, Conformance testing for computer graphics standards (1) 35– 43

Mrozinski, D., New approaches to automatic consumption meter reading in Germany (1) 43– 45
Myler, H.R. and R.D. Gilson, Taxonomic selection of computer-driven visual display systems (2) 123–128

Pflüger, C., *see* **Kirsch, B.** (1) 35– 43

Sales, B., Interworking between DoD and OSI systems based on X.25 environments (1) 13– 21
Spring, M.B., *see* **Bonino, M.J.** (2) 97–107

Wei, C.C., Strategy document for information technology standards in Singapore (3) 209–217
Weiss, M.B.H., Compatibility standards and product development strategy: A review of data modem developments (2) 109–122
